

Compressed Air Systems

Baker Group offers a full line of state-of-the-art compressed air equipment and services.

Piping Systems

The Midwest's leading distributor for both Parker-Transair and AIRpipe's compressed air aluminum piping systems.

Compressor Lines

FS-Curtis and Chicago Pneumatic reciprocating and rotary screw compressors, and Powerex medical and laboratory grade oil-free compressors and vacuum pumps.

Air Treatment Equipment

From standalone refrigerated and desiccant dryers to medical grade compressors and vacuum systems to comprehensive filtration, Baker Group represents FS-Curtis, Chicago Pneumatic, Hankison and Powerex.

Services

- Comprehensive compressed air energy air audits.
- Tailored, long-term compressor system service contracts.
- In-house engineers provide all-inclusive compressor room and compressed air system design.

Piping:

Accessories:

Accessories

Authorized Distributor for SPVG air receivers, Reelcraft hose reels, automatic no-loss condensate drains, FRL's, oil-water separators and nitrogen generators.

Compressors and Dryers:
