# UL Listed Panel Fabrication & Design at Baker Group

Baker Group stands apart with our in-house UL Listed Panel fabrication and design capabilities. From engineering a custom solution to fabricating hundreds of pre-designed panels at once, we can accommodate any of our clients' UL Listed Panel project needs.

With a knowledgeable and experienced team of engineers, Baker Group leverages the latest software to design panels with precision. Our team of skilled craftspeople then build panels in our pre-fabrication facility in Ankeny based on each project needs. This approach to design and fabrication translates to better costs, quality, schedule and safety across the entire project.

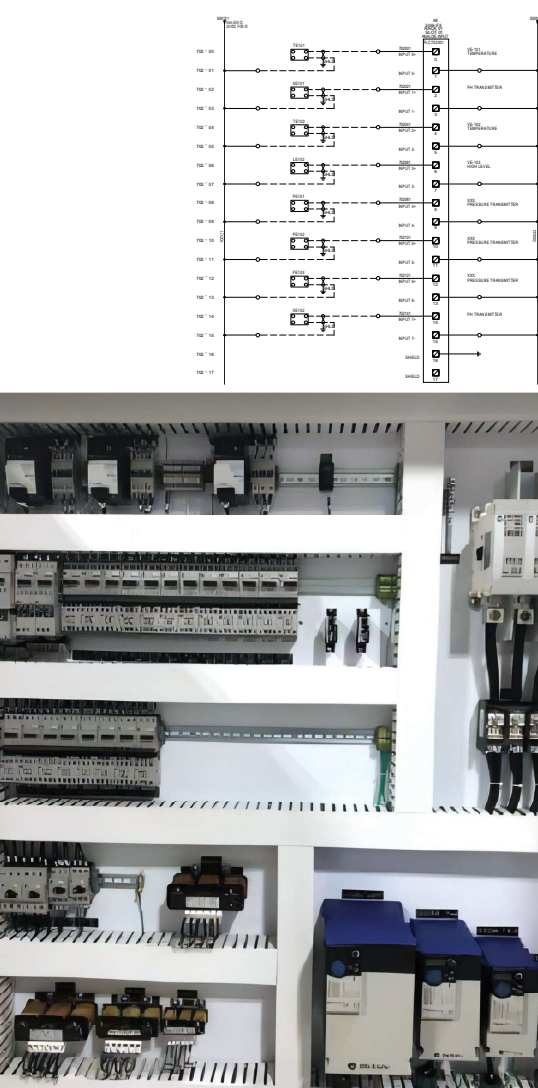

## UNIQUE ADVANTAGES

- In-house capabilities drastically reduce development times
- Create custom solutions to function seamlessly with your overall automation and electrical system
- Our Guarantee is: We take pride in our work. If it is not right, we will own it and make it right.

## ENGINEERING DESIGN SOFTWARE

- EPLAN
- AutoCAD Electrical
