Baker Group Expands Operations with New Fort Dodge Office

Longtime industrial partner establishes permanent local presence to serve north central Iowa.

Ankeny, IA – [September 29, 2025] – Baker Group, one of the Midwest’s most recognized names in construction contracting, is proud to announce the opening of its new regional office in Fort Dodge, Iowa. This expansion strengthens Baker Group’s ability to deliver exceptional industrial services to north central Iowa, where the company has proudly supported clients for years from its Des Moines metro headquarters.

The new Fort Dodge office brings Baker Group closer to its growing base of industrial clients in the region. The local team will provide full-service support specializing in Engineering, Procurement, and Construction (EPC), self-perform craft trades such as piping and process automation, and comprehensive plant maintenance services.

“We’ve had the privilege of serving the North Central Iowa region remotely for many years,” said Corey Jansen, Industrial Project Manager, Baker Group. “By establishing a permanent local presence, we can provide even faster, more responsive support to our clients while continuing to deliver the high-quality solutions Baker Group is known for across the Midwest.”

This investment reflects Baker Group’s long-term commitment to fostering strong client relationships and supporting industrial growth in Iowa. The Fort Dodge team will be backed by the company’s deep bench of experts and resources, ensuring clients receive innovative, cost-effective solutions for their most complex projects.

Baker Group will celebrate the opening of its Fort Dodge office with a ribbon cutting ceremony on September 30 at 4:00 p.m., hosted in partnership with the Greater Fort Dodge Growth Alliance. The event will bring together local business owners, community leaders, and Baker Group team members to foster connections and highlight the company’s commitment to supporting the region’s industrial and economic growth.
